You buy a game based on the box art and the screen shots, open it up and find a stack of disks, an obtuse map, and a reference manual as thick (and as clear) as a college calculus text. You boot up anyway and find yourself staring at a character on a tiny play field, surrounded by columns of confusing statistics. You walk around, run into monsters, and get greased with alarming alacrity.

Fun, huh?

Second Release

1. GABRIEL KNIGHT THEME	2:47
2. GIRL IN THE TOWER	3:56
